

Prophecy revelations, news and insights compiled briefly into one monthly email. No sales, solicitations or membership drives, ever! Please feel free to pass this email on to others.

Subjects in this Email Digest:

- February State of the Economy
- An Enemy is Moving Dangerously Closer
- The Dark Horse of the Obama Presidency
- Trans-humanism, Modern Day Tower of Babel?
- Message to My Fellow Americans

February is a special month because it rest in between winter and spring, life and death, calm and chaos. In this year 2009 it is the doorway to days of uncertainty, adversity and stress within our economy. But even in the blackest of hours there is always hope and that hope is in God. How do you endure such hard times? With prayer, resolve, patience and preparation. February is the season of preparation.

FEBRUARY STATE OF THE ECONOMY

In February President Obama can't become so bogged down in solving the economy that he becomes paralyzed. His decisions and actions on the economy must allow him to keep moving on other issues. Obama must be careful with those whom he trust and call his economic advisors. At this time known paths of resolution are better than untried theories. Obama has a goal to tackle the short-term economic woes while building a long-term sustainable economy. However, the short term economic problems are potentially disastrous; if the short term financial crisis is not resolved properly there will be no long term to even consider.

In the month of February there will be economic losses to those who are led by greed and speculation. February is not the month for anyone in the U.S. to take risks. Citizens are encouraged to hold on to what they have, do not invest into any risky ventures. Do not take risks of any sort; every dollar that is earned should be placed somewhere safe. If God has blessed you with

a good reliable job and you are offered what seems like a better job, keep your old job and let the new opportunity pass. This is the month to hold to those things which are reliable and have proven to be trustworthy. When a storm is upon you, you hold onto something that is planted firmly in the ground so that the wind will not blow you away you don't stumble about in it seeking new ground.

P.S. Set aside something out of your tax refund as a "little" backup during the coming hard times. While going through hard times, \$10.00 can often seem like all the money in the world when you don't have gasoline or something to eat. God will provide for those in need but He will also bless those who work hard and prepare.

AN ENEMY IS MOVING DANGEROUSLY CLOSER

To President Obama- An enemy will rise up out of nowhere and strike at you like a poisonous snake. It's a powerful enemy who will instill fear in you but you must be courageous and keep your wits and most important you must not back down but stand up firmly and defend yourself. However, you must not let this attack distract you, don't give it too much time and energy, stay focused on what needs to be done.

To Everyone- The enemy is being assertive and aggressive in their pursuit of the destruction of our nation. The enemy is within the nation not without and is deceptively climbing up through the ranks of our society and governments. This is their season of power as they befriend, encourage and support others in order to influence and build alliances from within. They have a goal and are actively working towards it now. Warning! The enemy is now entrenched within us moving towards their goal undetected and actually promoted and supported.

THE DARK HORSE OF THE OBAMA PRESIDENCY

Timothy Franz Geithner, 75th United States Secretary of the Treasury under President Barack Obama is a soldier of New Babylon which is the global financial system that runs our world today. His real job as Secretary

of Treasury is to ensure that once the economy is further taking a nose dive in the ground that the phasing in of a North American Union will commence. He is New Babylon's insurance policy that global plans will be met. Geithner has a long history of ties into the global financial system which is New Babylon. The following are just a few of his strings and attachments:

Director at the International Monetary Fund
President of the Federal Reserve
Member of the Bank for International Settlements
Member of the Council on Foreign Relations
Member of Group of Thirty

The goal of New Babylon is to build a one world government but first through merging nations into unions such as the European Union. There has long been conspiracies and speculation regarding a North American Union in which Canada, Mexico and the United States will merge its borders to form a new entity. We will see the introduction of this union to the American people during the Obama presidency. Geithner is there to make sure that it happens.

TRANSHUMANISM AND THE TOWER OF BABEL

In Genesis 11, we are given the account of the Tower of Babel. Mankind built the massive tower not to worship or edify God but to glorify the power of mankind. They sought to build a one world establishment much like New Babylon of today seeks to establish a one world government. In ancient texts it is said after confusing their languages, God overturned the great tower with a mighty wind.

Currently, there are scientists among us who are working to merge science, technology and the human body so that people can live forever, lives without diseases and defeat death. Silicon Valley, California is the platform for this not so new radical science. These could be considered noble gestures but they touch on sacred grounds which no man has ever treaded and lived to tell. To live forever in your physical body would require reconfiguration of the cosmos as ordered by God and to defeat death is to take on a power not meant to be held by flesh and blood. We can excuse these Godless ramblings

as the ideology of lunatics but what we can't excuse is the human sacrifices being made to try and prove it. Watch this growing movement, it is one of the tricks of New Babylon to make you take your eyes off of God and believe in the power of man. Tran humanist organizations and groups have popped up all over the world with growing support from some of the wealthiest people of the world. Watch, pray and keep your faith in God so that you don't become fooled. In the end even the very elect will be fooled by the tricks of New Babylon.

MESSAGE TO MY FELLOW AMERICANS

We are standing on the edge of one of the biggest transformations to occur in our nation. While there is a tendency to celebrate the election of President Obama, a truly historic moment for America, I admonish all to work hard while you celebrate. Work hard at preparing for the coming hard season that is almost upon us.

It's time for each citizen to turn inwards into themselves, their own households and began looking out for their own safety and well being. It's time to prepare for the coming new change-wind which will bring hardship to all of us in these up coming months. This is the time for wisdom, foresight and preparation. The world will not take care of you, the economist will not correctly advise you and the new President cannot feed and protect you, all of these things you had better learn to do yourself. God gave the little ant sense enough to prepare for the winter and He has given us even greater foresight and ability. February is the time to gather and prepare.

Don't ever think for one minute that you are without help. God is always there for you. The world will change, this nation will change, your life will change but God will always be there for you, this is one thing that will never change.
